About Me

Motivated second-year HNDIT student with 2+ years of academic project experience and strong software engineering foundations. Skilled in backend development with PHP, MySQL, and Java, passionate about building scalable web applications. Seeking an internship to apply backend skills and contribute to real-world projects.

Skills

Technical Skills:

- Java
- PHP
- Database Management
- Backend Development
- UI Design

Education

- **Higher National Diploma**
SLIATE Institute 2022 - present
2nd Year 1st Semester **GPA 4.00**

Object Oriented Programming	A
Web Programming	A+
Data Structures and Algorithms	A
Database Management Systems	A+
Operating Systems	A
Information and Computer Security	A
Statistics for IT	A+

1st Year 2nd Semester **GPA 3.97**

Principles of User Interface Design	A+
Software Development	A
Fundamentals of Programming	A
System Analysis and Design	A
Data Communication and Network	A
ICT Project	A
Human Value and Professional Ethics	A
Technical Writing	A

1st Year 1st Semester **GPA 3.93**

Computer and Network Systems	A+
Information and Management Systems	A+
Visual Application Programming	A
Web Design	A
Communication Skills	B+
ICT Project	A+
- **GCE A/L Engineering Technology Stream** 2021
- **GCE O/L Medium - English** 2018

Projects

Completed 10+ projects including console-based mini apps and major web/desktop applications. Key projects highlighted below.

- **Attend Link Student Management System - PHP**
Attendlink is a web-based attendance system enabling students to mark attendance via form submissions, manage medical reports, and view summaries. Lecturers handle attendance, timetables, and approvals, while admins manage users and system data. Built with PHP, MySQL, and modern web tools.

Soft Skills:

- Working Under Pressure
- Collaborative Working
- Time Management
- Communication Skills
- Leadership

Smart Patient Management System - Java

Developed a dynamic Java-based desktop application to streamline patient data management. With an intuitive GUI built using Swing, this system simplifies the process of recording, validating, and retrieving patient details.

Shopy Cart Website UI - HTML / CSS

Shopy Cart is a sleek and responsive shopping cart website UI designed with HTML and CSS. It features a product catalog, cart summary, and checkout interface for an engaging user experience.

ShopyCart Super Market Website - PHP

Built a full-stack e-commerce site using PHP and MySQL with features like product listings, shopping cart, user accounts, and admin panel. Designed with HTML, CSS, JS, and Bootstrap for a responsive, user-friendly experience.

Thank you for taking the time to review my CV. I'm excited about the opportunity to contribute my skills and grow as a developer within your team.
